

Tobos Intellectual Property specializes in assisting national and international clients on all aspects related to protection of creative works whether industrial or artistic, as from the materialization of the idea until the enforcement of an intellectual property right in Colombia.

Our practice group is comprised professionals in various technical fields such as chemistry and electronics. The majority of our staff holds scientific degrees and many also have industry experience. Our people have also active participation in local and international associations. The technical background of our staff made us dedicated to patent prosecution and litigation.

Our clients vary from Colombian Industries in the field of chemicals, food, mechanical and telecommunications; international clientele in various technologies and also international law firms with whom we have developed bonds of collaboration to offer clients bests services at competitive rates.

Tobos Intellectual Property is committed to offer the highest quality IP services aiming to accompanying our clients in achieving their goals. We can proudly say that a significant part of our work come from reference from our clients to other clients.
